GOOD NEWS:
SENATORS
TO VOTE
NO!

The Government's proposed law means West Papuan families seeking asylum in Australia will be sent to Nauru. Detaining refugees on Nauru and Christmas Island, then returning them may have already resulted in nine deaths. Isolating refugees in environments like these denies them access to Australian legal protection, which is bad news for those who deserve basic human rights. Tell your Senators to vote NO to the Government's asylum seeker legislation. www.freewestpapua.com.au
